

Primary: Specialist Knowledge for Teaching Maths Teaching Assistant Programme

OUTLINE

This programme is designed to support teaching assistants (TAs) in developing specialist knowledge for teaching mathematics, thus enabling them to understand, teach and support pupils in the maths classroom.

DETAILS

WHAT IS INVOLVED?

Following an introductory module which sets the scene for the current maths teaching landscape, this programme will focus on the four core modules for primary:

- number sense
- additive reasoning
- multiplicative reasoning
- fractions

WHO CAN APPLY?

- These programmes are designed for TAs who are supporting maths, and who would like to develop their specialist knowledge for teaching maths.
- This may be particularly relevant for new TAs or TAs that have not received maths-specific training.

WHAT ARE THE EXPECTATIONS?

- Participants and their schools must be able to commit to the full academic year's programme (4 days equivalent). This is likely to involve some face-to-face activity alongside online collaboration.
- During the programme, participants will be asked to undertake tasks with learners to deepen their thinking about the learning of maths, and to share this with colleagues. It is asked that school leaders support their staff to complete this work.

COVID RECOVERY

The school year 2020/21 will be substantially affected by the impact of the coronavirus outbreak. The knock-on effects on school life and teachers' working lives can't be predicted with any certainty. So, all Maths Hubs work will be flexible and adapt to changing realities. There's likely to be more live online collaboration, often including use of video, for example. In addition, Work Group content will be adjusted to address schools' recovery from coronavirus-related disruption alongside work on the central maths subject matter of each project.

WHAT IS THE COST?

The SKTM - Teaching Assistant programme is fully funded through the East Midlands East Maths Hub so is free to participating schools.

WHO IS LEADING THE WORK GROUP?

Claire Fraser, Assistant Maths Hub Lead and Primary Specialist - Welton St Mary's C of E Primary Academy

Primary: Specialist Knowledge for Teaching Maths Teaching Assistant Programme

ADDITIONAL INFORMATION

INTENDED OUTCOMES

Participants and their schools will:

- Enhance their maths subject knowledge with an emphasis on the key structures in each mathematical area covered.
- Understand the key elements that form number sense, forms of addition and subtraction, forms of multiplication and division, and forms of fractions, including precise language, structures and representations.
- Review their practice as a result of the sessions and make specific adaptations to impact on pupil outcomes.

THE WIDER CONTEXT

It has long been recognised that maths teaching is enhanced when practitioners are confident about the subject matter. Maths Hubs work with a range of partners to ensure there is effective professional development of those supporting maths in schools so that they have the specialist knowledge required to support the learning of maths.

SESSION DETAILS

We will aim to provide the following face-to-face sessions, however due to current circumstances if this isn't possible then alternative dates for online provision are also shown below:

Face-to-Face

Friday 15th January 2021, 9.30am to 3.30pm
 Friday 26th February 2021, 9.30am to 3.30pm
 Friday 23rd April 2021, 9.30am to 3.30pm
 Friday 28th May 2021, 9.30am to 3.30pm

Venue to be confirmed.

Online Provision

Friday 15th January 2021 and Thursday 21st January 2021
 Thursday 25th February 2021 and Friday 26th February 2021
 Thursday 22nd April 2021 and Friday 23rd April 2021
 Thursday 27th May 2021 & Friday 28th May 2021
